

PREPARING YOUR CHILD FOR THE UNKNOWN: ESSENTIAL SKILLS FOR THE 21ST CENTURY

In today's rapidly changing world, equipping children with the skills to navigate the unknown has become paramount. This guide explores the essential skills for the 21st century and how Queen Mira International School actively cultivates them through its unique activities and programs.

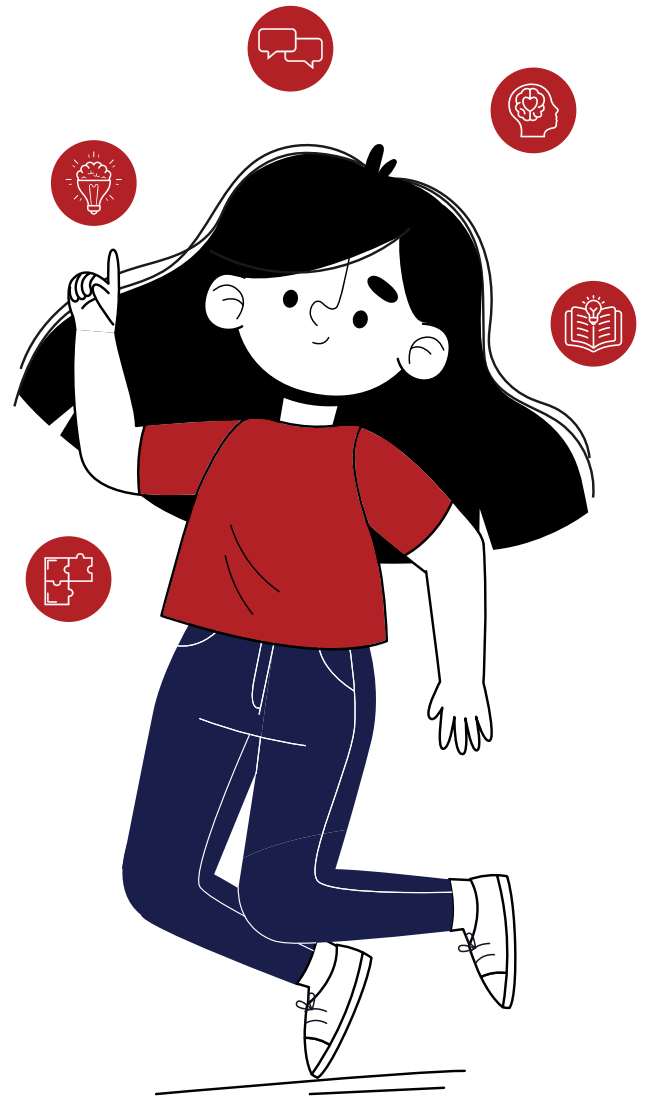

Critical thinking and problem-solving: The ability to analyze information, identify solutions, and adapt to changing situations.

Creativity and innovation: The capacity to generate new ideas, think outside the box, and contribute positively to the world.

Communication and collaboration: Effective communication across diverse backgrounds and cultures, fosters teamwork and collaboration.

Digital literacy and lifelong learning: Confidence in using technology responsibly and continuously seeking new knowledge and skills.

Social and emotional learning (SEL): Self-awareness, self-management, social awareness, relationship skills, and responsible decision-making.

➤ HOW QUEEN MIRA EMPHASIZES THESE SKILLS THROUGH SCHOOL ACTIVITIES AND OUR PRESTIGIOUS CLUBS.

Project-based learning: Students delve into real-world problems, encouraging critical thinking, collaboration, and innovative solutions.

STEAM (Science, Technology, Engineering, Arts, and Math) programs: Nurturing creativity, problem-solving, and technology fluency through interdisciplinary learning.

Global citizenship initiatives: Promoting cultural understanding, empathy, and responsible global thinking through exchange programs, international collaborations, and service learning projects.

Debate and public speaking opportunities: Developing critical thinking, communication skills, and the ability to defend ideas confidently.

Social-emotional learning (SEL) curriculum: Integrating mindfulness practices, conflict resolution strategies, and character development into everyday learning.

Other-school activities: From Access to Computer Labs clubs to robotics lab, QMIS offers a diverse platform to cultivate creativity, collaboration, and lifelong learning.

➤ TAKE A LOOK AT OUR EXCLUSIVE CLUBS.

Erudite Club:

English is not only a communicative language but also a language that inspires imagination and creativity. With an introduction to theatre arts, drama, films, reviews, and discussions, the Erudite Club plays a major role in developing critical as well as linguistic skills.

Agaram Club:

With Agaram Club, a student can delve deep into the historical roots of the Tamil language and its significance in adding beauty to art, music, philosophy, and literature. It is very important to know where we come from, right?

Popcorn Club:

Who doesn't like to hold a camera and shoot? The Popcorn Club at QMIS unleashes students' creativity through films and cinematography. Students are encouraged to write scripts and shoot their films.

Heritage Club:

This club encourages the children to explore the past to understand a country's traditions, culture, diversity, and landscape variations. The club promotes physical, social, and cognitive skills, thereby enabling them to preserve the values for a better future.

Science Club:

Science and science experiments help in improving the quality of life. With hands-on learning experience, the Science Club aids in fostering curiosity and critical thinking.

Join Queen Mira International School and empower your child to thrive in the 21st century and beyond!
